YOU WILL AGREE

that one gallon of Paint is better than another.

Not because the Maker says so,

Not because the Dealer says so,

Not because the Painter says so,

But because the gallon of paint contains better material than the other.

The Colonial Paint is 100 per cent pure. It cannot be made better.

Just about anything for a Paint Brush you need.

When Buying a Fence

the weight per rod and size of wire must be taken into consideration. Also the structural features of the fabric. There is not another fence on the market possessing the same structural advantages. We use heavy wires and the best galvanizing. The quantity of American fence now in satisfactory service on American farms is evidence of its merits. It has proven itself to be a great success. We build it of material from our own mines, through our own furnaces and steel mills up to the finished fence. We are the largest manufacturers of wire in the world and know exactly what kind to put into a fence to make it right.

Every Dealer in Paints

will tell you that his paint is the best.

That's His Business.

The COLONIAL PAINT has its formula on every can showing the exact material of which it is made.

That's Our Business.

If you are a careful buyer you will find out for yourself whether the paint you intend to buy is put up by a concern that is not ashamed to show you their formula, and whether that formula is a good one or not.
